Emmeti Underfloor Heating

Emmeti UK offers a comprehensive range of Underfloor Heating Products, many designed specifically for the UK market. These innovative solutions, built on market feedback over many years of experience give confidence to installers. We know what we are doing.
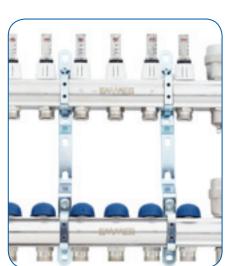

The key benefits of using Emmeti Underfloor Products include:

• Installer lead product designs that aim to make life easier for the plumber

• Simple to use products that reflect our state of the art manufacturing facilities

• Compatible componentry designed to integrate into your wider heating system structure.

Service and support:
We offer a high level of accessible product knowledge and technical support.
By telephone or by our simple to use website, **we can provide you with the answer you need**, verbally or in writing, and promptly.

With Emmeti Underfloor Heating products you will be able to **get the product you want, when you want it**, at a sensible price.

All Emmeti products carry a product guarantee.

Manufactured to **ISO 9001** and **ISO 14001**, an active member of **UHMA** Underfloor Heating Manufacturers Association.
All products comply with **EN1264** requirements.
